The campus is equipped with advanced technological resources to facilitate seamless academic delivery, efficient administration, and an enhanced learning environment through its IT infrastructure.

Computing Resources

- **Total Computers:** 76 (61 desktops and 15 laptops)
  - **Office Use:** 10 computers and 3 laptops
  - **Departmental Use:** 37 computers
  - **IT/Computer Lab:** 30 computers
- The college ensures timely software upgrades and acquires advanced systems with modern configurations to meet evolving needs.

Library and Administration Automation

- The library operates with the Integrated Library Management Software (ILMS) **'LIB-MAN'** for efficient management.
- The administrative office and library are fully computerized, powered by **Mastersoft ERP software**.
- **Wi-Fi connectivity** is available in the office, library, and IQAC room, ensuring smooth operations.

ICT and Classroom Facilities

- **18 LCD projectors** installed in classrooms and the seminar hall for ICT-based teaching.
- **2 Smart Classrooms** equipped with modern teaching tools.
- **200 Mbps broadband connection** with 105 LAN points and campus-wide Wi-Fi for robust connectivity.

Additional Technological Resources

The campus is equipped with various tools and devices to support academic and administrative activities, including:

- **Barcode Scanners**
- **Printers, Scanners, and Barcode Printers**

- **Digital Cameras**
- **Public Address System**
- **Digital Display Board**
- **Smart Board and LED Displays**
- **Biometric Attendance Machine**

Surveillance and Security

- **24 CCTV Cameras** installed across the campus to ensure security and safety.

This state-of-the-art infrastructure fosters a technologically advanced academic ecosystem and ensures efficient administration, enabling the institution to deliver high-quality education and services.
