ECONOMICS OBE PROCESS

Academic Year 2018-2019

1. Course- Program outcome Matrix: The Program Outcomes are developed through the curriculum (curricular/co-curricular extra-curricular activities). The program outcomes are attained through course implementation. As an educator, one must know, "to which POs is his/her course contributing?". So that one can design the learning experiences, select teaching methods, and design the tool for assessment. Hence, establishing the Course-PO matrix is an essential step in the OBE. The course-program outcomes matrix indicates the correlation between the courses and program outcomes. The CO-PO matrix is the map of the list of courses contributing to the development of respective Pos.

The Template is provided in the table below

2. Course Outcomes (for all courses):

The course outcomes are the statement that describes the knowledge & abilities developed in the student by the end of the course (subject) teaching. The focus is on the development of abilities rather than mere content. There can be 5 to 7-course outcomes of any course. These are to be written in specific terms and not in general. The list of Course Outcomes is **Annexure-C** attached herewith.

3. Set Target levels for Attainment of Course Outcomes:

The course outcome attainment is assessed in order to track the graduates' performance w.r.t target level of performance. CO-PO attainment is the tool used for continuous improvement in the graduates' abilities through appropriate learning & teaching strategies. In order to assess student's performance with respect to abilities (at the end of course teaching/by the end of the program) the course outcome attainment is measured/calculated. In order to calculate the program outcome attainment, the course outcome attainment is calculated. Prior to that, the course-program outcome mapping is done.

4. Set Target level for Attainment of Program Outcomes:

The program outcome attainment is assessed in order to track the graduates' performance w.r.t target level of performance. CO-PO attainment is the tool used for continuous improvement in the graduates' abilities through appropriate learning & teaching strategies. In order to assess student's performance with respect to abilities (at the end of course teaching/by the end of the program) the course outcome attainment and program outcome attainment are measured/calculated. The program outcome attainment is governed by curricular, co-curricular, and extra-curricular activities including the stakeholders' participation. The direct method and indirect method are adopted to calculate the PO attainment. **The direct method implies the attainment by course outcomes contributing to respective program outcomes. An indirect method is the satisfaction/feedback survey of stakeholders.** In order to calculate the program outcome attainment, the course outcome attainment is calculated. Prior to that, the course-program outcome mapping is done. The set target level is the set benchmark to ensure continuous improvements in the learners'/ graduates' performance.

5. Course Attainment Levels:

- a) CO attainment is defined/set at three levels;
- b) The CO attainment is based on end-term examination assessment and internal assessment;
- c) The Co attainment is defined at three levels in ascending order
 - i. e.g. For end-term and internal examination;

Sr. No	Level	CO Attainments
1.	Level-1:	30% of students scored more than the class average
2.	Level-2:	40% of students score more than the class average
3.	Level-3	50% of students score more than the class average

. The target level is set (e.g. Level-2). It indicates that **the current target is level-2; 40% of students score more than the class average.** The CO attainment is measured and the results are obtained. Based on the results of attainment, corrective measures/remedial action is taken.

e. CO Attainment= 80% (Attainment level in end-term examination) + 20% (Attainment level in internal examination)

6. Program attainment Level:

- a. PO attainment is defined at five levels in ascending order;
- b. **The PO attainment is based on the average attainment level of corresponding courses (Direct Method) and feedback survey (Indirect method);**
- c. The PO attainment levels are defined/set as stated below;

Sr. No	Level	PO Attainments
1.	Level-1:	Poor: Greater than 0.5 and less than 1.0 (0.5>1)
2.	Level-2:	Average: 1.0 to 1.5
3.	Level-3	Good: 3: 1.5 to 2.0
4.	Level-4	Very Good: 2.0 to 2.5
5.	Level-5	Excellent: 2.5 to 3.0

d. The PO attainment target level is set/defined (say, Level-4). It implies that the department is aiming at a minimum level-4 (very good) in the performance of abilities by the graduates. Based upon the results of attainment, the remedial measures are taken;

e. PO Attainment= 80% (Average attainment level by direct method) + 20% (Average attainment level by indirect method).

7. The Results of CO Attainment: The Results of CO Attainment is provided in Annexure-B

FOR EXAMPLE, COURSE CODE/TITLE: Paper IX: DSE-E73 International Economics-I

e.g., For end-term and internal examination;

i. Level-1: 30% of students scored more than the class average

ii. Level-2: 40% of students score more than the class average

iii. Level-3: 50% of students score more than the class average

8. The Results of PO Attainment:

The Results of PO attainment are provided in Annexure-B.

FOR EXAMPLE: PO NO.: a (Note: Refer to point No. 11 above which describes the attainment level and set target attainment level).

PO Attainment= 80% (Average attainment level by direct method) + 20% (Average attainment level by indirect method).

- **(PSO-A) = 80% (3+3+3+3+3+3+3)/7=3.00 + 20% (3+3+3+3+3+3+3)/7=3,**

80% (3.00) + 20% (3) =6.00/2=3.00, i.e. Level-5, The Target Level is-3(3: 1.5 to 2.0),

Hence, PSO is attained.

- **(PSO-B) = 80% (3+3)/2=3.00 + 20% (3+3)/2=3,**

80% (3.00) + 20% (3) =6.00/2= 3.00, i.e. Level-5, The Target Level- 3(3: 1.5 to 2.0),

Hence, PSO is attained.

- **(PSO-C) = 80% (3+3+3+3+3+3)/6=3.00 + 20% (3+3+3+3+3+3)/3=3,**

80% (3.00) +20%(3) =6.00/2=3.00, i.e. Level-5, The Target Level is-3(3: 1.5 to 2.0),

Hence, PSO is attained.

- **(PSO-D) = 80% (3+3+3+3)/4=3.00 + 20% (3+3+3+3)/4=3.00**

80% (3.00)+20% (3)=6.00/2=3.00, i.e.Level-5, The Target Level is L-3(3: 1.5 to 2.0),Hence, PSO is attained.

- **(PSO-E) = 80% (3+3+3+3)/4=3.00 + 20% (3+3+3+3)/4=3,**

80% (3) + 20% (3) =3.00/2= 3.00, i.e. Level-5, The Target Level- 3(3: 1.5 to 2.0),

Hence, PSO is attained.

- **(PSO-F) = 80% (3+3+3)/3=3.00 + 20% (3+3+3)/3=3,**

80% (3) + 20% (3) =6.00/2=3.00, i.e. Level-5, The Target Level- 3(3: 1.5 to 2.0),

Hence, PSO is attained.

- $(\text{PSO-G}) = 80\% (3+3+3+3)/4=3.00 + 20\% (3+3+3+3)/4=3, 80\% (3.00) + 20\% (3) =6.00/2=3.00$, i.e. Level-5, The Target Level- 3(3: 1.5 to 2.0),

Hence, PSO is attained.

Table No. 2- POs/PSOs Attainment Level

PO/PSO Number	Target Attainment Level-3, Very Good (3: 1.5 to 2.0)	PO/PSOs Attainment Level-5 Excellent: (2.5 to 3.0)		Fully Attained/ Not Attained	Remedial Measures
		Value	Level		
PSO-A	3	3.00	5	Fully Attained	-
PSO-B	3	3.00	5	Fully Attained	-
PSO-C	3	3.00	5	Fully Attained	-
PSO-D	3	3.00	5	Fully Attained	-
PSO-E	3	3.00	5	Fully Attained	-
PSO-F	3	3.00	5	Fully Attained	-
PSO-G	3	3.00	5	Fully Attained	-

Hence, the attainment level is Level-3 and the set target level is Level-2 and therefore the PO & PSO is partially attained.

9. Planned Actions for Course Attainment:

The courses for which the level attained is less than Level-2, the remedial measures will be taken in plan way that includes, tutorial, assignments, field work and remedial coaching.

10. Planned Actions for Program Outcome Attainment: - Not Applicable.
